

MOUNTAIN STATES ENGINEERING & CONTROLS

Custom Control Sensors pressure, temperature and vacuum switches

Cast iron, CS, forged steel, SS, bronze gate, globe, check, ball and butterfly valves.

Custom HX

Industrial shell & tube heat exchangers including custom designs. Expedited tube bundles.

Non-corroding HDPE towers with 20-year warranty. Anti-microbial materials option for legionella control

Wye and basket strainers

Filters and housings for water, steam, sterile air, and gases

Floating NPT, SW & FLG up to 600 ANSI Class, Trunnion mounted ball valves up to 2500 ANSI Class

Sleeved and lined plug valves including severe service

Weir & straight-thru style diaphragm valve

Pneumatic quarter turn rack & pinion actuator

Sanitary level transmitters, indicators and displays. Instrument air filters and desiccant

MOUNTAIN STATES ENGINEERING & CONTROLS

KUNKLE

Safety and relief valve products

Level, pressure, temperature, analytical sensors and transmitters; microprocessor controllers and PC based process monitoring software.

Regenerative turbine low NPSH chemical, condensate, BFW pumps

Steam specialties, flow meters and boiler controls.

Electric condensate and boiler feed pumps. Direct acting temperature control valves

Center guided, globe, single and dual disc check valves; Wye and basket strainers

Steam trap repair kits for all makes and models. Hot water & steam radiator temperature control valves

Globe and rotary valve systems. Up to 36", pressure up to class 4500. Special trims.

Automated 2 & 3-way globe and e-ball control valves for industrial and building automation

Watson McDaniel steam specialties

Plate & Frame heat exchangers and replacement parts.
